

MODI VENT PIPE COLLAR (for 1" to 4" pipes)

Modi Vent Pipe Collar cuts to fit most pipe sizes. Connects pipes to roof membrane flashing with an absolute waterproof seal. No more call backs for leaking pipe flashing. Modi Vent Pipe Collar solves your pipe flashing problems permanently and easily. Compatible with modified bitumen (APP or SBS) and built-up roofing.

Quick, easy installation. The flange seals between membrane plies leaving no route for water entry. Eliminate the worry of flashing pulling away or cracking over time – seal the pipe permanently the first time with the Modi Vent Pipe Collar and never go back! Versatile, cut to size design ends the need for stocking a variety of sizes of metal pipe flashing. Seals to roof membrane securely and improves the appearance of your finished roof, too.
